NatureSense

Svestran i vlagootporan

EL2831 Hrast Elton Beli

NatureSense

NatureSense laminatni pod unosi toplinu u svaki dom.

NatureSense laminatni podovi su izrađeni od preko 80% obnovljivih sirovina i dostupni su u nizu privlačnih dekora i različitih formata.

Ovo su podne obloge otporne na UV zračenje, ogrebotine i udrace, dok odolevaju izazovima svakodnevnog života i lako se čiste. Prikladne su za podno grejanje, a zahvaljujući CLIC it! sistemu instalacije vrlo lako se postavljaju.

NatureSense laminatni podovi su idealni za sve koji traže kombinaciju estetike, funkcionalnosti i ekološke održivosti.

Prednosti podova NatureSense:

- Raznovrsni dekori i formati
- Izdržljivost
- Jednostavno održavanje
- Ekološki prihvatljivi
- Jednostavna instalacija
- Prikladni za podno grejanje

AquaDura

Pametan pod sa dvostrukom zaštitom od vlage

AquaDura

EDF301 Scivaro Škriljac

AquaDura laminatni podovi predstavljaju savršen spoj atraktivnog mat dizajna i vrhunske funkcionalnosti. Ovi podovi su izrađeni od drveta, čime se osigurava ekološka održivost i prirodan izgled.

AquaDura laminat je idealan za primene u vlažnim uslovima jer poseduje dvostruku zaštitu od vlage: nosivu ploču koja ne bubri u kombinaciji sa vodonepropusnim sistemom Aqua CLIC it!.

U segmentu podova na bazi drveta on nudi maksimalnu sigurnost.

Bez obzira na izazove svakodnevnog života, ovi podovi će zadržati svoj izgled i kvalitet dugi niz godina.

Prednosti podova AquaDura:

- Vodootporne podne obloge
- Laminatni pod sa zvučnom izolacijom
- Jednostavno održavanje
- Ekološki prihvatljivi
- Jednostavna instalacija
- Izdržljiv i pouzdan
